## 2 NEW VOLUMES

In response to your many requests we have now produced 2 volumes of extra courses. Each volume contains 2 superbly designed brand new courses plus the original Holed Out program, therefore you do not need the original Holed Out to play them. Each course has been meticulously created to test your golfing abilities to the limits. The holes are very varied and even Nick Faldo would need to use his skills to keep up his recent record.

## ARCHIMEDES VERSIONS

These superbly enhanced versions really show the power of the Archimedes at it's best. The game is completely mouse controlled and features atmospheric digitised sound effects to convince you that you are really playing golf.

"In the June issue of The Micro User, Holed Out for the BBC Micro was described as 'a test of skill not to be missed'. The same game has now been released for the Archimedes and it is quite a stunning piece of work, ranking with Zarch and Conqueror in quality. The graphics are effective and have amusing little touches like the ripples when the ball hits the water and sand lying into the air when you are trying to get out of a bunker - a great game." THE MICRO USER August 89

"Sound is definitely a feature of Holed Out. There are examples for all sorts of situations: hitting trees, splashing into water, dropping into the hole and of course whacking the ball. These are effective, especially if heard through a hi-fi." ACOGN USER August 89

"The game comes on a single 3.5 disc with a high quality 16 page instruction book and a reference card... I play golf and this is the nearest thing I've seen to the real game on a computer. The graphics are very good with a large scale golfer complete with bag and trolley (and a good swing!) and the sounds are very realistic." ARCHIVE June 89

HOLED OUT EXTRA COURSES VOL 2 £16.95**

## ELECTRON VERSIONS

Unlike many other games all Electron versions of Holed Out have all the features and exactly the same graphics as the BBC versions. Here's what the experts have to say about this remarkable game.

"There have been many golf simulations for the Electron in the past, but none match up to this brilliant game from The Fourth Dimension. The 3D perspective graphics are stunning and the gameplay is interesting and varied. There are precise maps in the well documented instruction booklet to help you plan your strokes. There's also a very useful quick reference guide to the distances - in the air and along the ground - that the ball will travel when using the various clubs. It doesn't matter whether you're a golf fan or not, you'll still enjoy this challenging and skillful computer version."

The Electron User GOLDEN GAME June 89

"This is an absolute must for golf fans. The Electron version is brilliant - it's almost the same as playing at Glenelg. The usual Electron owners problem of a game showing brilliant graphics in adverts which do not appear on loading has been overcome. The trees have depth to them, the green can be seen clearly and the golfer is very detailed, including shadow. To sum up - this is probably the best simulation that I have played."

## BBC VERSIONS

Holed Out has established itself amongst the greatest games ever for BBC Micro.

"Holed Out is great. The game plays very well and the graphics are superb." Popular Computing Weekly March 89

"My favourite game at present is Holed Out, an impressive & surprisingly good golf simulation... I wouldn't have thought it possible to get a better simulation out of the BBC, mind you I expect something along those lines was said before Eliza." BBC ACN User June 89

"A really great game where attention to detail & technical ability have resulted in over superficial 'flash' appeal. Unreservedly recommended." A & B Computing GAME OF THE MONTH June 89

"The best golfing simulation I've seen on any Acorn machine. When the ball is hit, its shadow travels along the ground giving an impression of distance. When it hits the ground, the way it bounces and comes to a stop is also very realistic."

"I thoroughly enjoyed the time I spent with this simulation. If you're a golfing fan wanting to keep your hand in - buy it. If you are not, still buy it - it will keep you entertained for hours and hours. This is a test of skill but to be missed." Micro User June 89

# Where Good Embodies Bad and Fantasy becomes Reality

## WHITE MAGIC – Where Good embodies Bad and Fantasy becomes Reality

*White Magic is a unique arcade adventure in which you can actually transform between all 4 characters as any time during play. It features 32 massive action-packed levels filled with aggressive evil guards and evils, haunting ghosts and spirits, curious objects to find and use, treasures and much, much more.*

*To complete the game you must survive all 32 levels, each with its own theme. Certain characters will fair better than others on different levels and it is your job to know when to transform between characters if you are to succeed.*

*White Magic is not a game for the faint-hearted; it is a fast-action game which requires fierce hand-to-hand combat and frantic weapon fire. Each character has his or her own levels of energy, weapon strength, magical power and armour. And by carefully collecting the artefacts as you progress through the levels you can develop each of the characters to their maximum potential.*

*Artefacts can be useful or harmful and include such things as potions, spellbooks, amulets, time-bombs, swords, time-pills, scrolls, shields, ammo-boxes, staffs and rings. White Magic puts you amongst heroes in a world of magic, danger and adventure. Is it all just a dream?*

### Kaldor The Leprechaun

*This skilled warrior has little in the way of strength or armour but his 2 unique magical gifts. Firstly his ability to run like the wind can prove very useful to avoid hordes of enemies and to save precious time. Secondly he alone can lay over enormous incurable mighty tree stumps.*
